

### Stretch and Math

**Skills:** numeral recognition; shapes; math facts

**Materials:** heavy poster board, rubber bands, markers

**Directions:** Use the pattern below to cut rectangles with notches out of the poster board. Write numerals by the notches on one side and corresponding sets on the other side as shown. Children take the rubber bands and stretch them between numerals and sets. Turn the card over and draw lines to show the correct answers.

**More!** Use for matching shapes, facts and answers, letters, etc.
